

RESULTS AND RECOMMENDATIONS FROM THE SOFIA SEMINAR

I. General outcomes

I.A General outcomes to the transitional period

1. Implementation of EESSI should occur as soon as possible – sector by sector with coordinated bilateral and multilateral agreements.
2. There should be clear rules on how to proceed during the transitional period, taking into account all aspects – legal, administrative, technical.
3. Must be a coordinated and transparent access to EESSI during the transitional period.
4. The precise definition of T0 is needed.

I.B General outcomes to the implementation EESSI

5. There should be provided detailed clear and comprehensive technical manuals with examples with updated versions.
6. The problematic with the transliteration should be clarified both from technical and business side.
7. There should be sufficient EC resources to reply on time and make updates to documentation.
8. The project partners recommends deeper and more comprehensive business testing.
9. Development road map (AC 490 Annex 1) should be clarified in the sense of explanation of each JIRA ticket.

I.C General outcomes to the secure policy

10. There should be a new possibility to define more roles in WEBIC /for security purposes/.

II. Proposals to all project countries

1. All project countries should keep working actively towards EESSI even in the perspective of extension of the transitional period.
2. We should cooperate closer between national seminars.

III. Recommendations to Bulgaria

1. Deepening and continuing the coordination between experts of the different institutions, EESSI projects and sectors.
2. To utilize membership in the testing group in order to express Bulgarian needs.
3. To review decision to use WEBIC and not the initial application.

IV. Other remarks to Bulgaria

1. Other project countries found out a huge positive progress in the Bulgarian National EESSI project since the Helsinki seminar in April 2011.

V. Issues for the next national seminar

1. National training plans
2. Review of the recommendations we've made already in Helsinki and Sofia.
3. Exchange of "good practices" from the management of the national EESSI projects.
